Value Improvement

The impact and importance of the Medicare and Medicaid programs to healthcare providers and organizations has never been greater. In fact, the financial viability of many providers depends on payments and compliance related to stringent and often times subjective rules, regulations and guidelines governing these payer sources. Perpetual regulatory changes and increased enforcement initiatives along with the transitional forces of managed care and provider integration have increased the need for innovative and responsible approaches to reimbursement.

**At PYA, we have a staff of dedicated healthcare professionals who specialize in providing a comprehensive range of reimbursement services to an array of providers including:**

- Acute hospitals
- Home health agencies
- Surgery centers
- Rural health clinics
- Critical access hospitals
- Rehabilitative hospitals and units
- Nursing homes
- Physicians
- Physical therapy centers
- Dialysis centers
- Psychiatric hospitals and units
- Children's hospitals

**Our approach to providing reimbursement services is designed to emphasize:**

- Regulatory compliance
- Documentation quality
- Reimbursement enhancement
- Education and follow-up

**Accordingly, our objectives related to these services are to:**

- Ensure optimum and proper reimbursement
- Decrease exposure to regulatory sanctions, denials and audits
- Enhance the content and quality of reports, records and claims
- Decrease long-term dependency on outside consultants

Our approach to each engagement is customized to address the individual client's specific needs in a manner that best utilizes available internal and external resources. Historically, we have not provided reimbursement services on a contingency basis, which is consistent with our philosophy of providing high quality services at reasonable fees. It also reflects our confidence, ability and commitment to provide effective services in a cost-efficient manner. We are adamant that our long-standing approach and philosophy to develop long-term, comprehensive service relationships with our healthcare clients is more pertinent than ever.

# Reimbursement
