

# Ambulatory Surgery Center (ASC) Services

PYA's seasoned team understands the complexity of providing reliable professional services to ASCs and offers hands-on guidance to assist such organizations in making informed business decisions.

- **Business Valuation** - PYA values ASCs for a variety of purposes, including mergers and acquisitions, joint venture arrangements, minority shareholder transactions, and dispute and litigation matters. Our experienced team delivers sound valuation advice to clients.
- **Compensation Valuation** - PYA renders fair market value opinions on common arrangements for ASCs, including management service and billing arrangements. Additionally, PYA has valued facility space, equipment, and staffing arrangements, as well as other professional service agreements. Our analyses and recommendations assist our clients' efforts to remain compliant with the various regulations governing transactions in the healthcare industry.
- **Alternative Payment Model Valuation** - PYA provides ASCs with fair market value and commercial reasonableness assessments of provider network revenue distributions. Our reviews help ensure compliance with plan design to incentivize the desired behavioral change necessary to achieve organizational population health goals.
- **Facility and Strategic Planning** - PYA develops the right stand-alone or partnership approach for ASCs based on specific goals and objectives. Our approach considers the needs of the community, the market environment of the ASC, and the viability of potential targets.
- **Transaction Advisory** - PYA helps ASCs identify, craft, and implement affiliations that optimize performance. Our approach addresses critical financial, legal, and administrative considerations for all potential transactions.
- **Due Diligence** - PYA tailors due-diligence efforts to client needs and environmental circumstances. Our approach ranges from specific, limited-scope due-diligence activities to comprehensive financial and operational due diligence.
- **Reimbursement Analysis** - PYA assists ASCs with confidential, black-box reimbursement analysis to evaluate economic impacts related to potential transactions or arrangements.
- **Regulatory Compliance Issues** - PYA offers a robust portfolio of compliance services. Our team is committed to working alongside clinicians, billing and coding staff, and leadership teams to mitigate risk and maximize overall compliance practices. Services include billing, coding and documentation reviews, clinical documentation reviews, and compliance program implementation and assessments.
